

## Harry Kleiser Joins TerranearPMC as President

October 5, 2012

Harry R. Kleiser, P.E., has joined TerranearPMC, LLC (TPMC) as President. He is welcomed by CEO, Ken Fillman and Chairman of the Board, Amar M. Raval.

Mr. Kleiser started his career with the U.S. Army Environmental Command, was an Officer and Director of Federal Programs at Malcolm Pirnie, Inc., and last held the title of Executive Vice President serving as Client Development Director of Federal Programs within ARCADIS, a \$3B corporation offering environmental, infrastructure, water, and PM/CM consulting services. He also headed the International DOD Program account for the ARCADIS Global company. Mr. Kleiser will be based in Baltimore, MD and open a new office there for TPMC.

Mr. Kleiser has a strong history and track record leading Federal programs, business development, large contracts, and projects for U.S. government clients including the U.S. Army, Navy, Air Force, Marine Corps, DLA, U.S. Army Corps of Engineers, U.S. Army Environmental Command, National Guard Bureau, USAID, DHS, DOE, and DOI. He also offers strong depth and experience in strategic planning, services diversification, private-public partnerships, and mergers and acquisitions. In addition to his role as President, he will also be a member of the Board of Directors for the firm. His immediate focus will be on key client oversight, strategic business development, and diversification as TPMC graduates from an SBA 8(a) to a Small Business in the summer of 2013.

TPMC's Chairman, Amar Raval said, *"We consider it a great opportunity to bring someone of Harry's caliber into the company to help us take the next steps in our growth and diversification."*

Harry explained the reason for the move to TPMC, saying: *"Amar Raval and Ken Fillman have built a strong and ethical company with an outstanding client focused culture. I am honored to be offered the opportunity to join such a solid and well-respected team. For over 20 years, they have consistently delivered to their clients, expanding services in HTRW, remediation, military munitions, radioactive waste management and, more recently, energy. This is a great base to build on and a terrific management team to work with. I am very excited about our future together!"*
